

SAINT RITA'S CHURCH

Francis De Luca, better known as “Ciccu Pirètu”, in 1926 built this small church, next to the river Vardano, in honor of Saint Rita, because he wanted to comply with a request of his father Joseph, who had a dream in which Saint Rita asked him to build and dedicate to Her, a small church in that place. Every year, on the twenty second of May, it's celebrated the festivity of Saint Rita and people go devoutly to this small church, to attend the sacred ceremonies and to pray to the “Saint of the impossible”.
